"Together we can do what separately we cannot." – St. Vincent de Paul

November 2011

Our Vision:

Be the leader in fostering accessible, comprehensive, high quality care to all people in the greater New Orleans region.

Our Mission:

Provide support to an integrated and coordinated network of healthcare providers in the greater New Orleans region with a focus on Orleans, Jefferson, St. Bernard, and Plaquemines Parishes.

Our Goals:

1. *Increase access to comprehensive primary care and behavioral health services to all people irrespective of the ability to pay*
2. *Improve the quality and benefits of care*
3. *Increase sustainability, effectiveness and efficiency among member organizations*
4. *Develop linkages for a full continuum of health services*
5. *Advocate for the needs of community-based primary care and behavioral health providers serving underserved populations*
6. *Advance an effective medical home model system of care*

Formed in 2008, 504HealthNet is a not-for-profit organization of 16 community health providers representing the majority of the safety net working collaboratively to better meet the primary care and behavioral health needs of low-income, uninsured, and underinsured residents.

504HealthNet members independently operate more than 40 service locations throughout the greater New Orleans area ranging from comprehensive primary care and behavioral health sites to medical mobile units. Collectively, member organizations employ nearly 200 health professionals and 300 staff who provide care for approximately 80,000 patients in 150,000 visits per year.

We are currently working to:

- Pursue initiatives that will enhance sustainability, effectiveness, and efficiency of member organizations, and increase members' capacity and capabilities
- Partner with hospitals, community stakeholders, and potential funders to expand members' ability to provide coordinated, comprehensive community health care throughout the greater New Orleans region
